PEALE'S MUSEUM,

IN THE STATE HOUSE, PHILADELPHIA.

Admittance twenty-five Cents.

THIS splendid and valuable establishment, founded in 1785, is the first in the United States, and but little inferior to the imperial Museums of Europe. It is displayed with scientific method and pleasing neatness. The Quadruped room contains 212 animals, all preserved in appropriate attitudes, and all but the largest in glass cases; besides horns, skins, &c. Amongst the most remarkable, are the Elephant Seal, from the south seas, measuring eleven feet in length, and nine feet in girth; the Madagascar Bat, three feet two inches from tip to tip; the Ourang-outang, or wild man of the woods; the great Ant-eater, Lion, Grisly Bears, Hyæna, Porcupines, Cow with five legs, and a large and powerful Electrifying Machine, &c. The long room displays an elegant range of cases, containing Birds from every quarter of the globe, to the number of 1240; 180 Portraits of characters distinguished during the American revolution, and since, besides philosophers of Europe and America; a splendid collection of Minerals, Fossils, and Miscellaneous Curiosities, amounting to near 8000 articles; various optical amusements, and Lukens's model of perpetual motion.—The Mammoth room exhibits the stupendous skeleton of the Mammoth, which was dug up in the state of New York, in 1801, by C. W. Peale, at great expense. This skeleton of an antediluvian animal, whose species no longer exists, measures 18 feet in length, and 11 feet 5 inches in height.—In this room are likewise wax figures of Indians, &c. habited in their own dresses, instruments of war, tools, and dresses, upwards of 800 in number.—The marine room (up the lobby stairs) containing 121 Fishes, 148 Snakes, 112 Lizards, 40 Tortoises and Turtles, and 1044 Shells, Corals, &c. Shells of the great India Oysters, weighing 350 lbs.; besides cases, humorously exhibiting a variety of Monkeys, employed in the occupations of men; and lastly, a portion of this room is appropriated for anatomical preparations, double-headed animals, deformities, skeletons, &c.

N. B. The whole Museum is brilliantly illuminated with Gas Lights, every Tuesday and Thursday evenings, and during the winter season a number of chemical and philosophical experiments are exhibited, and the whole enlivened by music, principally by a large and rich toned Organ, on which visitors of taste perform—rendering the rooms an agreeable and fashionable lounge.

*. * Historical Catalogue of the Paintings to be had at the door, price twenty-five cents.

 *The Profile cutter attends every day and evening. Frames furnished at the door.*

BLACKING

FOR

BOOTS AND SHOES,

Superior to any ever offered to the Public.

ROBERT COCHRAN,

NO. 48, NORTH FOURTH STREET,

(Next door to the Green Tree Inn.)

With confidence offers to the Public, his Superior Portable and Liquid Blacking, so much admired and approved of, which is manufactured by himself only.

This Blacking possesses every desirable quality, being of an oily nature, it preserves the leather perfectly soft to the last, and keeps it from cracking—it is a jet black, affords a most superlative polish, entirely free from any offensive smell, and so clean as not to soil the whitest muslin or any other substance it may chance to rub against, and will keep in any climate—it has a peculiar advantage in being put up in a portable manner, and may be packed without possibility of risk, with the nicest clothes or goods. The Portable Blacking is much adapted for gentlemen residing or travelling in the country, where materials for making Blacking is not to be had, and as for cheapness and elegance, far exceeds any ever imported or manufactured in the Union. Where is sold as above the beautiful Chinese Liquid Blacking, for Ladies' Morocco Boots and Shoes, which makes the oldest morocco boots or shoes appear the same as when new. Sold wholesale at the Manufactory, as above.

N. B. Please observe that each bottle is sealed and signed by the Proprietor, to prevent spurious impressions being imposed on the Public.

The Portable and Liquid Blacking, which is manufactured by ROBERT COCHRAN, I have carefully examined and made trial of, and find it a complete preparation of oil, particularly adapted to the preservation of the leather, and certainly will preserve it to the last from cracking. I, therefore, as a currier, do strongly recommend it to the Public as an article superior to any in use.

IMPROVED PATENT Steam Kitchen and Steam Kitchen Stoves.

THE subscribers inform the citizens of the United States, that they manufacture and keep a constant supply of the above, of five sizes, calculated to accommodate small or large families, taverns, boarding houses, ships, steam boats, &c. &c. Wood or coal can be burnt in them, and they are adapted to all seasons or climates.

No. 1—is in the form of a close stove, 14 by 22 inches, with a variety of boilers, &c. calculated for a family of from four to six persons. Price \$43 at the factory.

No. 2—is similar to No. 1—is 24 by 15 inches, calculated for a family of from six to nine. Price \$55.

No. 3—is 28 by 17 inches, has more boilers, &c. than the above, and calculated for a family of from nine to twelve. Prices \$66 and \$70, with extra open fire place.

No. 4—is 33 by 19 inches, calculated for a family of from twelve to eighteen. Price \$90, with open fire place.

☞ Eight feet of pipe is allowed to the portable stoves.

No. 5—is a kitchen put up in brick work, with cast iron front grate, &c. is 38 inches by 19, oven 23 by 20, reservoir holding 30 gallons, six boilers and other articles, with scraper, fire brick, &c. Is calculated to be put up on either side of the fire place, or in the fire place, as most convenient. Costs \$80; and when put up by them, costs with the materials, about \$12 more, and will answer for a family of from eighteen to twenty-five. If any larger size should be wanted, a little time will be required, and the larger the family the greater the object. They can be increased to suit the largest College or Academy in the United States, and no doubt will clear themselves in one year, as it has been often acknowledged in private families of the first respectability. They also save all the cooking utensils, as not any of them comes in contact with fire or smoke; will be found to be more lasting and clean, and not so laborious in using.

The advantages of this cookery over every other kind are very great, and are as follow:

1st. They take no more room than a common stove, and perform double the work with less wood.

2d. They are more healthy, as the reservoir containing clean warm water, has a tendency to soften the air, regulate the heat, make it more agreeable, and furnishes warm water for use.

3d. The oven is so improved as to roast, bake, fry, broil steak, toast bread, burn coffee, and every other part of cookery, except what the boilers perform, and all in a superior manner. You can bake every day without the cost of an extra fire, as it can be done when you boil tea kettle—you can boil a number of dishes, roast, fry and broil steaks, all at once. Clothes can be boiled or steamed in a handsome manner.

4th. Meat and vegetables are better when boiled by steam, and the saving of meat is calculated to be ten per cent. as it does not boil away, and can be boiled two or three times and be as good as at first; and roasting by hot air is calculated to save in the same manner.

An establishment of this kind has cost much trouble, as it comprises several branches of mechanical work, which the subscribers have made themselves masters of; and from the encouragement already received, cannot but expect a continuance, and with due respect, wait commands.

PAXTON'S
Philadelphia Directory,
AND
Register Office.

THE SUBSCRIBER,

Being editor and publisher of the Philadelphia Annual Directory and Register, has by an arrangement for the use of the public, established an

Office, No. 29, Filbert, 3 doors above Ninth street,

to give information to the citizens generally; where he keeps a Directory for the purpose of registering all removals; changes of residence; omissions which may have happened in this directory; and of such persons who may arrive in the city during the current year.—By which means he expects to be enabled frequently to communicate information that may be of importance to the public. *But it must be remembered, that the utility of this will entirely depend on the public,* as all information must be sent to this Office, which will be then registered, and information will be given to all inquiries.

It is also proposed to keep a register for all *transient residents* in this city. Every stranger, gentleman or lady, is invited to forward their name as soon as they arrive in this place—their residence, and the time (if they think proper) of their intended stay—their place of residence, when at home—from where last, or such additions as they may wish to add. Every person has the privilege of seeing this Register, which in all probability will frequently be a mean of introducing long absent friends or acquaintance, who would otherwise not know of their being so near each other.

No fee will be received for either registering the names, or communicating such information when registered.

N. B.—The public are informed that advertisements may be inserted in this Directory; and the subscriber begs leave to suggest to the conductors of manufactories, and those engaged in permanent occupations, the utility of advertising in the supplementary sheets thereof. This book will necessarily be in the hands of every man of business in the city, and is generally the first consulted to it, people from abroad; of course, an advertisement attached to it, will be conveyed to more people than through any other medium, and be exposed longer to public view, as the Directory will be in constant use for one year at least.

* The editor of this Directory commenced the one for 1814, for which he collected the greater part of the names, and afterwards sold out to B. & T. Kite.

TO THE PUBLIC.

THE Editor tenders his sincere thanks to those citizens who have patronised this Directory, and assures them every exertion has been made to render it very complete in every part. Its merits can be best ascertained by a comparison with former Directories.

The Directory commences with the "*Annual Advertiser*,"* which comprises a number of advertisements, most of which are headed by handsome emblematical cuts in wood. The arrangement of the names is very much improved, and the number greatly increased.† The reader is recommended to make himself acquainted with the "*Directions to the Reader*," as soon as possible, as it will make every part clearly understood. A very complete list of streets and public places (made out originally by the Editor) follows the names.

The "*Philadelphia Register*," embraces a complete list of duties, together with considerable information very useful to merchants, masters of vessels and others—the Members of Congress—Departments of Government—Ministers and Consuls—U. S. Navy—Post Office Establishment—Government of Pennsylva-

* See the Editor's advertisement under this head.

† This Directory contains 23,000 names: the present New York Directory contains 17,000 names; but notwithstanding this difference in favour of Philadelphia, the New Yorkers have the assurance to contend that their city is the most populous in the union!

PREFACE.

esteem—let the rest borrow or beg, *as usual*. We are sorry we cannot, after the manner of some public printers in this city, boast of our immense and overflowing patronage, &c. for certainly a good Directory is equally deserving of extensive public support; and we may add that it is almost indispensable, in this large and flourishing city. If no Directory was published for two years, there would be no calculating the great value of the time that would necessarily be spent in searching out the residence of individuals.

If the Editor is properly encouraged by the citizens, he will repeat the publication of the Directory annually; and as, by experience, it is now reduced to a certainty, Philadelphia cannot support a competition in this business, he thinks it by no means unreasonable, very respectfully to solicit his fellow citizens for their future undivided patronage, so long as he executes the work to their satisfaction, which he will endeavour to merit by his attention to their service. He is induced to make this seemingly unreasonable request, as a divided support would probably oblige him to relinquish his intention to repeat the publication.

JOHN A. PAXTON.

For the deposit of Wines, &c.

An Act providing for the deposit of Wines and distilled Spirits in public warehouses, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That it shall be lawful for any importer of wines or distilled spirits, which may be imported into the United States, at any time after the first day of

June next, at his option, to be determined at the time of making entry therefor, either to secure the duties thereon, on the same terms and stipulations as on other goods, wares, and merchandize imported, or to give his bond, in double the amount of the duties thereupon, with condition for the payment of the said duties, in twelve calendar months from the date of such bond; which bond shall be accepted by such collector without surety, upon the terms following, viz.—The wines or distilled spirits, for the duties whereof such bond shall be accepted, shall be deposited at the expense and risk of the importer, in such public or other store-house as may be agreed upon between the importer and the surveyor, or officer of inspection of the revenue, for the port where the said wines or spirits shall be landed; and such wines or spirits shall be kept under the joint locks of the inspector and the importer; but no delivery shall be made of such wines or spirits without a permit in writing, under the hand of the collector and naval officer of the port.

Sect. 2. *And be it further enacted*, That no permit shall be given for the removal of the wines or spirits deposited under the provisions of the foregoing section, unless the duties upon the wines or spirits for which it shall be required, be first paid or secured, in the manner following, viz. The importer, or his assignee, shall give bond, with one or more surety or sureties, to the satisfaction of the collector, in double the amount of the duties upon the wines or spirits in each case to be delivered, with condition for the payment of the said duties, at the same credits, to be computed from the date of the permit, as would have been allowed on bonds for the same articles, if they had not been deposited under the provisions of this act. *Provided*, that the time to be allowed for the payment of the duties upon any wines or spirits so delivered, or for any part of such duties, shall not be such as to extend the credit beyond the term of twelve calendar months, originally allowed upon depositing such wines and spirits.

Sect. 3. *And be it further enacted*, That if the duties on any wines or spirits, deposited under the provisions of this act, shall not have been paid, or secured to be paid, in the manner described in the foregoing section, within the term of twelve calendar months from the time of their importation, it shall be the duty of the collector to cause so much of such wines or spirits as may be necessary, to be sold at public auction, and retaining the sum necessary for the payment of the duties which have not been secured or paid, together with the expenses of safe keeping and sale of such wines or spirits, shall return the overplus, if any, to the owner or to his agent, or lawful representative; and the amount of each bond, taken for the duties on wines or spirits delivered, after being deposited, as directed by this act, shall be endorsed immediately on the original bond given by the importer, specifying the articles delivered and the date of the delivery.

Sect. 4. *And be it further enacted*, That no drawback shall be allowed of the duties paid on any wines or spirits, which shall be imported into the United States after the first day of June next, unless such wines or spirits shall have been deposited in public or other stores, under the provisions of this act, and there kept from their landing to their shipment,

Sect. 5. *And be it further enacted*, That if any wines or other spirits, deposited under the provisions of this act, shall be embezzled or fraudulently hid or removed from any store or place wherein they shall have been deposited, they shall be forfeited; and the person or persons so embezzling, hiding or removing the same, or aiding or assisting therein, shall be liable to the same pains and penalties as if such wines or spirits had been fraudulently unshipped or landed without payment of duty.

Sect. 6. *And be it further enacted*, That from and after the first day of June next, the bonds for duties on articles imported by sea, the produce of foreign places or islands, situated on the eastern shores of America, north of the equator, or in its adjacent seas, bays, and gulfs, salt excepted, shall be payable, one half in six and one half in nine calendar months; and the bonds for duties on goods, wares, and merchandize, (other than wine, salt and teas,) imported from any other place than Europe and the West Indies, shall be payable, one-third in eight, one-third in ten, and one-third in eighteen calendar months.

SECT. 93. The master or person having command of any vessel bound to a foreign port or place, shall deliver to the collector of the district from whence such vessel is about to depart, a manifest of all the cargo on board, and the value thereof, subscribed by such person; the penalty for not delivering such manifest, and obtaining a clearance, previous to departure from such district, is 500 dollars for every offence.

Importers and Consignees.

SECT. 36. Owners or consignees of goods imported, are, within 15 days after the master's report, to make entry with the collector, detailing the several contents and nett cost of each package particularly, and produce the original invoice, documents and bills of lading, which must be verified on oath or affirmation, by the said parties, who must subscribe the form of entry on oath.

When the above entry is made by any agent, factor or other person, other than *bona fide* owner or consignee of such merchandize, such person to give bond in the sum of 1000 dollars, over and above what the duties may amount to, with condition, that the *bona fide* owner or consignee of such merchandize, shall, on or before the first period of payment of such duty become due, deliver to said collector, a full and correct account of said merchandize, in manner and form aforesaid; verified by a like oath or affirmation, before any judge of the United States, or a judge of any court of record of a state, or before a collector of the customs: and in case the duties are paid at the time of entry, a like bond to be given, that such an account shall be delivered, within ninety days from such entry.

When the particulars of such merchandize are not known, an entry thereof to be made according to circumstances; declaring on oath or affirmation, all the particulars the party knows or believes concerning the same, to be subscribed by the party: and where an imperfect entry is made, either for want of invoices, bills of lading, &c. the collector to take such merchandize into his custody, until the quantity, quality or value can be ascertained.

SECT. 37. Every importer or consignee of distilled spirits, wines or teas, to make a separate entry of the same, specifying the name of the vessel and master, and place from whence; the quantity and quality, and a particular detail of the chests, casks or vessels, containing the same, with the marks and numbers; which entry, after being certified by the collector, to be produced to the surveyor or

officer acting as inspector of the revenue for the port: and all permits granted by the collector for the above articles, shall, prior to the landing of the same, be produced to the surveyor or officer acting as inspector for the port, for endorsement; any of the above articles landed, contrary to the above direction, are subject to forfeiture, and 500 dollars penalty on the master or person having charge of the vessel.

SECT. 56. Goods not landed in 15 days to be sent to the public store, and all goods so deposited to be at the risk and charge of the importer; and if not entered and the duties paid, or secured *within nine months* to be sold, (being first advertised for one month,) the surplus money arising from such sale, after the duties and charges are paid, to be paid into the treasury of the United States, for the benefit of the owners, who, upon due proof of the property, shall be entitled to the same. Perishable articles may be sold immediately.

SECT. 66. Goods entered under a fraudulent invoice to be forfeited, or where the collector shall suspect that such goods are not invoiced agreeable to the sum such goods are sold for at the place from whence they are imported, to be taken into his possession at the risk and expense of the importer, until they are appraised, and in case of prosecution for the forfeiture aforesaid, such appraisement shall not exclude other proof on trial, of the actual and real cost of the said goods at the place from whence imported.

SECT. 67. Packages may be opened in presence of two merchants, upon suspicion of fraud, and repacked under the inspection of an officer; and if found to differ from the entry, to be forfeited, unless made appear to the satisfaction of the principal officers of the customs, or a court on trial, that such difference proceeds from accident or mistake, or without intention of fraud.

SECT. 47. When goods, &c. the growth or manufactures of the United States shall be returned, not having been shipped for the benefit of drawback or bounty, no duty to be demanded.

SECT. 48. Report and entry of such goods, &c. to be made, and proof, by oath or affirmation, of the facts thereof.

N. B. When the goods so returned have been exported from any other district than the one they may be imported in, bonds to be given by the importer, in addition to the above oath, in the sum of the duties, that within six months a certificate shall be

produced from the collector of the customs for the district from whence they were exported, that such goods were actually so exported: in default of which, the bond to be forfeited and the penalty paid.

If any articles of the outward cargo are brought back, they are to be detained specifying by whom shipped outward, and to whom consigned inward.

RULES AND REGULATIONS.

Warden's Office, November 20, 1818.

For the information and government of Owners, Masters, and others, having the command, care, or charge of Ships or Vessels within the port or harbour of Philadelphia, the Wardens of the port conceive it necessary to publish the following Rules and Regulations:

1. Every ship or vessel that may arrive in this harbour, and that shall come to anchor in the stream, any where between Almend street (in the district of Southwark,) and Vine street, having previously caused her gunpowder, if she had any on board, to be landed as the law directs, may remain in that situation 24 hours, and no longer: taking care to lay as near to the Island, or Sand-bar, as may be consistent with their safety. But if, from the circumstance of a vessel having servants on board, or from any other cause, it may be thought necessary or convenient to lay a longer time in the stream, then, and in every such case, the Owner, Master, Pilot, or other person, having the charge or direction of such vessel, shall remove her from opposite the city, and shall moor her, or cause her to be moored to the northward of Vine street, with one anchor and cable up, and one anchor and cable down the stream; and in both the above-mentioned situations, the regulations contained in the next succeeding article to be duly attended to.

2. When a ship or other vessel shall be hauled into any wharf or dock, or along side of another vessel that may be lying at such wharf or dock, the Owner, Master, Pilot, or whoever may have the command, care or direction of her, shall have her securely made fast, and if outside of another vessel, shall get one good fast from each end of the vessel to the shore, and within 24 hours thereafter, cause her jib-boom, spritsail-yard, main-boom, ring-tail and driver-booms, if any they have, to be rigged in, and their lower yards topped up, in such a manner as least to interfere with vessels passing.

3. If any vessel, properly moored in the stream, shall have her anchor or cable overlaid by another ship or vessel, in anchoring or mooring, the Master or person having the care or direction of such last-mentioned ship or vessel, shall immediately, or soon as may be, after application made to him by the party aggrieved, cause the said anchor and cable so overlaying, to be taken up and cleared.

4. If the fasts of a ship or vessel, when moored at a wharf, shall extend across a dock, so as to obstruct the passing or repassing of a shallop, lighter, or other craft or vessel, the Master or other person having the charge or command of such ship or vessel, shall upon the first application, immediately cause such fast or fasts to be cast off or slacked down.

5. No outward bound vessel putting off from a wharf, shall lay longer in the stream, between Vine street and Almond street (in the district of Southwark,) above-mentioned, than 24 hours. And if vessels lying at the end of wharves, so much interlock with each other, as to prevent vessels from hauling in or out of the docks, the Master, Owner, Pilot, or other person having charge of the same, shall immediately on application from any person so wanting to haul his vessel in or out of the dock aforesaid, have the vessel or vessels, so interfering, moved in such manner as to accommodate the one applied for; in which case the vessel making room for another to haul in or out, shall have liberty to make her warps fast to the most convenient place adjacent for a reasonable time, and that all sea vessels, when transporting or wanting to haul into a wharf or dock, or to make sail in order to proceed to sea, shall have the same privilege.

6. When any ship or vessel is laying along side any wharf, and not taking in or discharging, she shall make way for, and permit any vessel that wants to unload or load, to come inside next the wharf, until she discharges or loads her cargo; and the said vessel when so discharged or loaded, shall haul outside, and give way to the ship or vessel that first occupied the wharf—Provided, that from the first day of December, to the first day of March, no vessel shall be compelled to move.

THE PROGRESS AND PROSPECTS OF THE NAVY.

It will be recollected, that the Navy Yard at Washington, was burnt, and every thing in it destroyed, during the war. It has already, like Phoenix, risen from its ashes. There is now on the stocks, a line of battle ship, nearly finished; the frame of a frigate ready to be put on the stocks, as soon as the 74 is launched; a powerful steam engine, working a saw mill, tilt hammers, and the machinery of a block maker's shop, where all the blocks of the Navy are made. An extensive anchor manufactory; a manufactory of chain cables; extensive blacksmiths and plumbers' shops; extensive mould and model lofts, boat builders and mast-makers' establishments, and every other convenience for furnishing from thence all the wants of the Navy, that such an establishment can furnish. There are besides, large quantities of naval stores, guns, and timber for ship building deposited there.

There are at Norfolk, large deposits of timber for the use of the Navy; a line of battle ship building, and the frames of another line of battle ship and frigate, are also collecting there. The Congress and Macedonian frigates are now repairing there.

The keel of a line of battle ship is laid at Philadelphia; the frame is collecting and will be put up early in the spring. The frames of another line of battle ship and frigate, are also collecting at this place; where there are considerable deposits of timber, copper, iron, and other naval stores.

At New-York, there is a line of battle ship on the stocks, in the building of which great progress has been made. There are two frames of frigates deposited there, with considerable quantities of other timber for ship building, iron, copper, and guns. The John Adams is undergoing repairs there.

At Boston, is the keel of a line of battle ship laid, the frame collected, and will be set up in the spring. The frames of another line of battle ship and frigate are also getting ready for that place, where there are large deposits of timber, iron, and copper, for ship building.

The keel of a line of battle ship is now laying at Portsmouth, (N. H.) where the frame is collected, and will be set up in the spring. The frames of another line of battle ship and frigate, are also collecting there; where deposits of ship timber, iron, and copper, are made.

An abundant supply of timber, canvas, cordage, copper, iron, and every other article, the produce and manufacture of the United States, are already provided for carrying into effect the law for building nine line of battle ships, and twelve frigates, in addition to the ships now afloat; which will make the Navy of the United States, on the Ocean, *twelve line of battle ships, twenty frigates, and a proportional number of small vessels.* It is doubted

EXPORTS OF THE UNITED STATES.

From a statement of the Secretary of the Treasury to Congress, it appears that the value of the exports of the U. States, for the year ending the 30th of September, 1816, was *eighty-one millions, nine hundred and twenty thousand, four hundred and fifty-two dollars*, (81,920,452)—of which, 64,781,896 were of domestic materials, and 17,138,556 of foreign.

Of the domestic products exported, 7,293,000 were the produce of the Forest—of Agriculture, 53,354,000—of Manufactures, 1,755,000—of uncertain origin, 1,049,000.

The total amount exported to the possessions of foreign powers: the largest amount (39,184,558) was to those of Great Britain—the next largest amount (12,138,135) to those of France—the next (8,589,718) to those of Spain—to Holland and its Colonies, 5,609,524—to the Hanse Towns, and ports of Germany, 3,534,500—to Portugal, Brazil, &c. 2,270,389 dollars.

The total exports from the several states and territories, during the year before-mentioned, was in the following proportion:

UNITED STATES PATENTS.

The general law concerning the issuing of Patents will be found in the second volume of the Laws of the United States, page 200. This law provides for citizens only; but a subsequent law (vol. 5, page 88) provides also for applicants who have resided two years or upwards in the United States, and who are not citizens.

In applying for a patent, it is necessary to attend to every legal form, for in consequence of inattention to forms only, some of the patents issued formerly, have in the courts of law been declared to be null and void.

MODE OF APPLICATION.

"Every inventor, before he presents his petition to the secretary of state, signifying his desire of obtaining a patent, shall pay into the treasury of the United States, thirty dollars, for which he will be furnished with duplicate receipts, one of which he shall deliver to the secretary of state, when he presents his petition; and the money thus paid shall be in full for the sundry services to be performed in the office of the secretary of state, consequent to such petition. This petition must be addressed to the secretary of state, and may be in the following or in a similar style:

To the Hon. ———, Secretary of State of the United States.

The petition of A. B. of ———, in the county of ———, and state of ———, respectfully represents:

That your petitioner has invented a new and useful improvement ["or art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture, or composition of matter"] in ———, not known or used before his application, the advantages of which he is desirous of securing to himself and his legal representatives; he therefore prays, that

letters patent of the United States may be issued, granting unto your petitioner, his heirs, administrators, or assigns, the full and exclusive right of making, constructing, using, and vending to others to be used, his said improvement, (art, invention, machine, manufacture or composition of matter, &c.) agreeably to the acts of Congress in such case made and provided; your petitioner having paid thirty dollars into the treasury of the United States, and complied with the other provisions of the said acts. A. B.

The specification or description of the machine, art, discovery, or invention, must be given in clear and specific terms, designating it from all other inventions, and describing the whole in such a manner as to comprehend not only the form and construction, if a machine, but also the mode of using the same; and if it be only an improvement on a certain machine already invented by the applicant or any other, it ought to be so mentioned or described; and as this specification, description, or schedule, enters into and forms part of the patent, it must be without any references to a model or drawing, and must be signed by the applicant or applicants, before two witnesses. It is material that this be in good language, and correctly written, as it is transcribed into the patent, and the original papers will be deposited in an office, that will hand them down to posterity; by which the honour of the country is concerned in this attention. The modest inventor will, no doubt, exclude those panegyrics on the excellence of his invention or discovery, which abounds sometimes in the productions of the inferior genius, but which ought not to enter into the patent.

The following, or a similar oath or affirmation, taken [before a judge of any of the courts, or a justice of the peace, or any person qualified to administer an oath] by the applicant or applicants, must be subjoined to the specification, if citizens of the United States:

FORM.

County of _____, }
State of _____, } ss.

On this _____ of _____, 181 , before the subscriber, a justice of the peace, in and for the said county, personally appeared the aforementioned A. B. and made solemn oath [or affirmation] according to law, that he verily believes himself to be the true and original inventor or discoverer of the art, [machine, invention, or improvement, composition of matter, &c.] above specified and described, for _____ (mention here the object or intention) _____, and that he is a citizen of the United States.

_____, *Just. Peace.*

If not a citizen (or citizens) the following addition must be made to the declaration, "that he verily believes himself to be the true and original inventor or discoverer of the art, &c. And that the same hath not, to the best of his or her knowledge, or belief, been known or used, either in this or any foreign country _____." "Also, that he (or she) hath resided in the United States two years and upwards."

It is not necessary that the time of residence should immediately precede the application.

If an inventor or discoverer should die intestate, before an ap

plication be made for a patent, his legal representatives may apply for the patent, in trust for the heirs at law; otherwise in trust for the devisees.

The specification must be accompanied by a good drawing, in perspective, of the whole machine or apparatus, "where the nature of the case admits of drawings, or with specimens of the ingredients, and of the composition of matter, sufficient in quantity for the purpose of experiment, where the invention is of a composition of matter." "And such inventor shall, moreover, deliver a model of his machine, provided the secretary shall deem such model to be necessary." It is requisite, in giving a drawing of the machine, to give also sectional drawings of the interior when the machine be complex; and every drawing should be accompanied with explanatory references. If the machine is complex, a model will likewise be necessary, not only to explain and render it comprehensible to a common capacity, but also to prevent infringements of rights; for many will plead ignorance of drawings, who cannot avoid conviction by wheels and pinions.

The drawings ought not to exceed a quarto size, and if confined to octavo they would be still better, where it can be done conveniently and distinctly.

Many of the drawings in this office are executed in a very handsome style, and do much credit to the gentlemen whose names are ascertained. If the artists would always sign them, with their directions, information might be given to the applicants for patents where to apply for drawings.

The papers must all be sent directed to the superintendent of the Patent Office, under cover to the secretary of state, which of course renders them free of postage; but if models be sent, their freight or carriage hither must be paid, and, before packing them, the name or names of the inventor or inventors should be written hereon, with the name of the machine, and the date; for, sometimes, on receiving them, it is difficult to know to whom they appertain.

The congress being impressed with a high sense of the value of the inventions of our citizens, have purchased an elegant and extensive building, wherein preparations are made for the accommodation of a very numerous collection of the machines illustrative of the ingenuity displayed; and this Museum of the Arts, it is presumed, will stimulate the ingenious to send the models of their machines and inventions in a style that will rather honour than discredit themselves and our country.

Copy-rights of books, prints, charts, maps, &c. are secured "by depositing, before publication, a printed copy of the title of such map, chart, book or books, in the clerk's office of the district court, where the author or proprietor shall reside, who will record the same; and the author or proprietor shall within two months from the date of the record, cause a copy of the said record to be published in one or more of the newspapers printed in the United States, for the space of four weeks. And within six months of publishing the map, chart, book, or books, the author or proprietor shall deliver, or cause to be delivered to the secretary of state, a copy of the same;" and, when deposited and entered in the patent office, a certificate will be returned of its being received. This will secure

the sole right of publication, for fourteen years, to the author or proprietor, if a citizen of the United States, or resident therein. "And if, at the expiration of the term, the author or authors, or proprietors, or any of them, be living and a citizen or citizens of these United States, or residents therein, the same exclusive right shall be continued to him or them, his or their executors, administrators, or assigns, for the further term of fourteen years; provided he or they shall cause the title thereof to be recorded and published in the above manner, within six months before the expiration of the first term of fourteen years aforesaid." In securing designs for paper hangings and ornaments for rooms, &c. a specimen of each should be deposited in the clerk's office where the inventor resides, who will describe, in writing, all the ornaments, and the colour used in each, so as to designate them, with the changes that are proposed to be used in changing the ground and general tint. Let each paper thus described, be numbered, 1, 2, 3, &c. and after entering them in the clerk's office, and publishing them as directed, let a specimen of each be sent to the honourable the secretary of state, or through him to the person who directs the patent office, with correspondent descriptions and numbers; and a certificate of such a deposit will complete the requisitions of the law in securing the exclusive right to each original production of genius.

WM. THORNTON.

POST OFFICE ESTABLISHMENT.

The Post Office Establishment is under the direction of a Post Master General, whose office is called the General Post Office, and is kept at the seat of government.

Congress, by special act, establishes such post roads as appear to them expedient. At this time there is a main post road which extends 1,733 miles from Robbinstown, on the north-eastern extremity of the sea-coast of the United States, to St. Mary's, on the south-eastern extremity; and another main post road, which leads from the seat of government to New-Orleans, being a distance of 1,233 miles, and branches, or cross-roads, which keep up a communication between the capital of the United States, and the capitals of the individual states, and also with every city or village of any note. The aggregate of the extent of the several post roads is about 51,600 miles.

The mail is carried by contracts made with the Post Master General, who has divided the whole into nearly 400 routes or contracts, and has stipulated for its conveyance as often and with such expedition as he finds the public interest requires. It runs daily between the great and commercial towns; twice a week to the capitals of each state, not commercial; and once a week to other places. The usual rate of travelling on the cross-roads, is 40 miles a day; and from 60 to 120 miles in 24 hours, between the great commercial towns.

Post Offices are established by the Post Master General, at such places as he considers expedient.

There are stages for the conveyance of the mail and passenger from Belfast in Maine, to St. Mary's in Georgia, and on many of the cross-roads.

As there are several places of the same name in the United States, it is necessary that the directions should be particular; the *States* should be distinguished, and, when it might otherwise be doubtful, the *Counties*. When letters are not for a Post-town, the nearest Post-town ought to be mentioned.

The office is open daily, from sun-rise to sun-set; except on Sundays, the Fourth of July, and Christmas day, when it is open from 8 to 9 A. M. and from 2 to 3 P. M.

Persons wishing to pay postage when the office is shut, can enclose the money with the letter, directed to "The Post-office." Those who keep accounts with the carriers, or office, will please to

enclose the letter directed in the same manner, with a request that the postage be charged to their account.

Pennsylvania and Lying-in Hospital.

The history of this eminent institution is too well known to need particular notice here. It may however be observed, that the plan was first suggested by Dr. Thomas Bond, and it was founded by individual philanthropy in 1752. In 1774, it lost, by the depreciation of continental money, about ten thousand pounds, nearly one-half of its productive estate.—Subscriptions were, however, solicited, and by the united exertions of the managers successively employed, and the receipt of some legislative aid it has at length arrived at its present eminence.

Managers, Samuel Coates, Pattison Hartshorne, Lawrence Seckel, Zaccheus Collins, Joseph Lownes, Thomas Stewardson, Edward Pennington, Thomas P. Cope, Joseph Watson, Israel Cope, Henry Hollingsworth, Thomas Morris.—*Treasurer*, Joseph S. Lewis.—*Physicians*, Thomas Parke, Samuel Calhoun, Joseph Parrish, Joseph Hartshorne, Thomas T. Hewson, John C. Otto.—*Physician of the Lying-in Hospital department*, Thomas C. James.—*Physician to the Hospital out-patients*, John W. Moore.

Applications for admission must be made first to one of the Physicians, then to one of the sitting managers. The sitting Managers and Physicians attend at the Hospital on the 4th and 7th day morning of every week, to receive and discharge patients. Recent fractures and wounds, happening in and about the city, if brought immediately as they occur, will be admitted *gratis*, and without any security being demanded of the persons who bring the patient to the house.

N. B. Comfortable accommodations are provided for poor married women in the lying-in department, where they are attended free of expense.

Published by order of the Managers.

TO FOREIGNERS.

Aliens are informed, that such as have arrived in the United States since April 14, 1802, must report themselves to the clerk of the court of record ; and wait five years before they can be naturalized, even though they may have declared their intention to become citizens, some time since.

Those who have not made their declaration must do that also, five years before they can be naturalized. By the law of congress, a certificate of report and registry must be produced to the court, as an evidence of the time of arrival in the United States, the time of application to be naturalized ; and by a law passed March 22, 1816, said certificate of report and registry must be recited, at full length, in the certificate of naturalization, otherwise such certificate will be of no validity.

THE PILES.—A cure for this most painful disorder has always been considered by those afflicted with it, of the first importance. The writer of this has, for the last five years, suffered under this reiterated disease, during which time he could obtain no relief, until he accidentally met with a person who gave him a recipe which effected in him a complete cure ; and now, from motives of humanity, makes it known to the public—viz. Take a lump of strong Turkish alum about two inches in length, which smooth down with a knife to the thickness of three quarters of an inch—apply this morning and evening, first wetting it in cold water. In five to seven days the cure will be complete.

THE GOOD NEIGHBOUR—The following droll circumstance lately occurred in the north of the metropolis. A lady, probably very ignorant of what was passing in her own house, was as she thought and had reason to think, from her unwearied vigilance, perfectly acquainted with all the domestic economy of her neighbours. It happened that by a long and diligent observation of the proceedings in an opposite mansion occupied by a foreign nobleman, she had ascertained beyond a doubt, that the footman went to bed in the maid servant's room. To be convinced of error and to lose no time in correcting it, is the grace of virtue. A letter charged with these suspicions, was immediately despatched to the Count who wrote her a very polite answer, stating how much he was obliged to her for the lively interest she took in the morality of his family, that he would forthwith institute an inquiry into the matter, and put a speedy end to any impropriety he might discover; but he begged leave to observe, that he had hitherto understood that it was the custom of this country—for man and wife sleep together.—*London paper.*

Affect not to be seen, and men will less see thy weakness.
 Inquiry is human, blind obedience brutal. Truth never loses
 the one, but often suffers by the other.
 The most useful truths are plainest; and while we keep to
 them, our differences cannot rise high.
